

Health Literacy

**Making it Easy to use
health information
and services**

A graphic consisting of several overlapping circles in shades of teal and white. The circles are arranged to suggest the silhouettes of people, with some overlapping to show depth. The background is a dark teal color.

Health and social care staff have a duty to communicate and provide information in a way that people can understand and act on to improve their health. Health literacy is about all types of information including written, visual and verbal.

As part of this we want to support health and social care staff to use health literacy tools and techniques and to build health literacy into their practice.

Based on discussions around health literacy I intend to take the following action(s):

- Visit the Health Literacy Place website
- Register health literacy as a subject interest on People Connect
- Other:

We will send you this card in 2 weeks to remind you!

I would like NES to send me more information on:

- Find out more about becoming a health literacy supporter
- Find out more about health literacy training
- Other:

Please provide your email/phone number and we will be in touch:
